

TREND PLOTS FOR NUTRIENT PARAMETERS FOR THE PLANNING PERIOD

WBID=3009J

For all WBIDs, plots for the annual geometric means for nutrient parameters are displayed subject to data sufficiency requirements described in the IWR; although not all nutrient assessments use annual geometric means as a summary measure, all nutrient trend assessments for all WBIDs do, in contrast, use the annual geometric means.

Trendlines displayed represent linear regressions and may vary from results obtained using the methodology described in Chapter 62-303 F.A.C
